Developmental Medicine & Child Neurology

Volume 27 1985

INDEX

Authors and subjects of articles in the body of the journal are indexed together. Abstracts are included in the general index and listed under both subjects and authors, with '(abstr.)' at the end of the title. Letters to the Editor are indicated by the symbol '(L)'.

KEYS TO ISSUES AND PAGES

Issues	*Pages*	*Issue*	*Pages*
No. 1	1–138	No. 4	423–560
No. 2	139–279	No. 5	561–702
No. 3	281–421	No. 6	703–843

ABBEY. P. *See* ZIMBLER. S., 119
Abduction osteotomy for the severely contracted hip in spastic quadriplegia (abstr.), 122
ABELS. L., and ANDRASIK. F.: Reducing dental anxiety and non-compliance in a handicapped child population (abstr.), 104
Abused children, health of (abstr.), 418
vulnerability and resilience in infants (abstr.), 556
who have been shaken, neurological manifestations in, 312
Activity, level, and behavioural style in young children (abstr.), 841
neonatal and later (abstr.), 701
ADELOYE, A. *See* OYEWOLE, A., 498
Adenosine deaminase, human, expression of, using transmissable murine retrovirus vector system (abstr.), 558
with neuromuscular hexosaminidase deficiency: brain dysfunction, 664
ADEYOKUNNU, A. A. *See* OYEWOLE, A., 498
ADINOLFI, M.: The development of the human blood-CFS-brain barrier, 532
ADLER. N., BLECK. E. E. and RINSKY. L. A.: Decision-making in surgical treatment of paralytic deformities of the foot with gait electromyograms (abstr.), 106
See also KALEN. V., 105
Adolescents
handicapped, stress in, handling of, 389
intelligence in, relationship to neurological soft signs (abstr.), 838
psychiatric disorder in, relationship to neurological soft signs (abstr.), 838
sightless, physical capacities of, 767
with congenital rubella syndrome, health and educational status, 721
Adrenoreceptors, alpha$_2$-platelet, effect of clonidine on, in children with Tourette syndrome, 793
ADSETT, D. B., FITZ, C. R. and HILL, A.: Hypoxic-ischaemic cerebral injury in the term newborn: correlation of CT findings with neurological outcome, 155
AGRAS. W. H. *See* KORNER. A. F., 701
AICARDI. J., GORDON. N. and HAGBERG. B.: Holes in the brain, 249
GOUTIERES. F., SAUDUBRAY. J. M. and OGIER. H.: CT scans of infants with glutaric aciduria, 403(L)
AIDS, children with, developmental abnormalities in (abstr.), 97
infants and children with, and AIDS-related complex, developmental abnormalities with, 563
Akron midtarsal dome osteotomy for treatment of rigid pes cavus (abstr.), 83
ALBANESE. M. *See* WOLRAICH. M. L., 91
ALBERMAN. E. *See* EVANS. P. M., 404(L)
ALEXANDER. J. O. *See* STEEL. K. O., 355
ALLEN. M. C.: Appearance of selected primitive reflexes in a population of very low-birthweight premature infants (abstr.), 89
Assessment of early visual and auditory responses in very low-birthweight premature infants (abstr.), 86
ALLEN. R. *See* WASSERMAN. G. A., 698, 699
ALTEMEIER. W. A. *See* SHERROD. K. B., 418
AMBLER. M. M. *See* PUESCHEL. S. M., 95
AMBROSETTO. G. *See* SANTUCCI. M., 60
Ambulation, assisted, of cerebral palsied children: energy cost index as an estimate of energy expenditure during, 485
in myelomeningocele: parapodium versus

parapodium with ORLAU swivel modification (abstr.), 81
American Academy for Cerebral Palsy and Developmental Medicine, Annual Meeting, 1984: 80
ANDERSON, G. M., HODER, E. L., SHAYWITZ, B. A. and COHEN, D. J.: Neurotransmitter precursors and metabolites in CSF of human neonates, 207
ANDERSON, M. A. *See* GUSELLA, J. F., 274
ANDRASIK, F. *See* ABELS, L., 104; BLAKE, D. D., 98; MCCARRAN, M. S., 115
Ankle, passive dorsiflexion, in children with cerebral palsy, effect of neuromuscular stimulation (abstr.), 116
Ankle-foot orthosis, plastic, for prevention of muscle contracture (abstr.), 83
polypropylene, are they beneficial? 687(L)
solid, *vs* heel-cord lengthening, effect on gait of patients with cerebral palsy (abstr.), 106

ANNOTATIONS
Chronic illness and school achievement, 75
Chronically ill and handicapped children, do they become depressed? 677
Congenital hypothyroidism, 387
Convulsions and lumbar puncture, 69
Deficiencies within the pyruvate dehydrogenase complex: clinical and pathological correlates, 257
Handling stress in the handicapped adolescent, 389
Holes in the brain, 249
Huntington's disease, 826
Laboratory approaches for inherited neurometabolic diseases, 252
Motor control in infants with Down's syndrome, 682
Muscle wasting in the muscular dystrophies, 524
Neurological control of locomotion, 822
Pitfalls in muscle biopsies of hypotonic children, 675
Psychological sequelae of head injury in children, 72
Recovery from cortical blindness, 383
Treatment of scoliosis in Duchenne muscular dystrophy, 522
Vocal-cord paralysis and brainstem dysfunction in children with spina bifida, 528

Antibody
anti-peripheral myelin, in patients with demyelinating neuropathy (abstr.), 556
anti-Ro, in mothers of dyslexic children, 538(L)
monoclonal IgM, human, protection against Gram-negative bacteraemia and endotoxaemia (abstr.), 698
Anti-Ro antibody in mothers of dyslexic children, 538(L)
α_1-Antitrypsin variants of therapeutic potential for emphysema and thrombosis, synthesis in E. coli (abstr.), 275
Aphasia, acquired, in children, positive semiology, 231
acquired, with convulsive disorder (Landau-Kleffner syndrome), age of onset and outcome, 703
Apple //e in teaching communicative interaction skills (abstr.), 120
ARNOLD, R., YULE, W. and MARTIN, N.: The psychological characteristics of infantile hypercalcaemia, 49
Arthrodesis, triple, for children with spastic cerebral palsy, 623
